- Mobile on wheels
- PLC controlled
- Double High-pressure safety switches (1x electronic, 1x conventional)
- Over-heating safety switch
- Level measuring by the maintenance-free tuning fork sensor

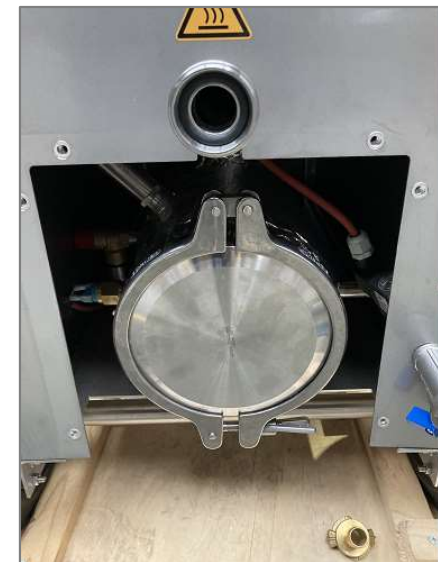

Safe usage – no lime coated heating elements – no burning of element due lime coating – stress free utility

➤ Self-cleaning heating element with lime resistant coating

The lime coating cracks and breaks off the heating element. Simple cleaning by opening the back cover (Tri-clamp closure) and brooming out the flakes from time to time.

➤ Easy to open and easy to clean (Tri-clamp cover).

➤ Compact shipping: Fitting 2 x units per Euro-pallet.
